Dear Mr. Montrie:

Pursuant to Rule X of the House of Representatives, the Committee on Energy and Commerce is examining the Risk Corridors program established under Section 1342 of the Patient Protection and Affordable Care Act (PPACA). As part of this oversight, the Committee is seeking information from your organization, Land of Lincoln Mutual Health Insurance Company ("LLH").

The Risk Corridors program is a temporary, three-year program that transfers payments to protect insurers suffering significant financial losses. Congress passed and the President signed legislation that restricted the availability of federal funds for payments to insurers through this program.<sup>1</sup> The Centers for Medicaid and Medicare Services (CMS) also publicly announced its intent to make the program budget neutral, so that the total amount of payments would not exceed the amount insurers paid into the program.<sup>2</sup> For the 2014 benefit year, the first year of the program, CMS collected 12.6 percent of the requested amounts from insurers, and CMS paid out roughly \$2.5 billion less than insurers expected to receive.<sup>3</sup>

The shortfall in Risk Corridors payments has motivated several health insurance companies to bring lawsuits against the Federal Government. While the Department of Justice and CMS currently argue in some of the actions that insurers' claims are not ripe for consideration because the three-year program is still ongoing, that argument will cease to have any validity on December 31, 2016. On September 9, 2016, CMS published a memorandum announcing its intention to make up for the shortfall in payments with collections from the 2015 and 2016 benefit years. In the same memo, however, CMS also took the unusual step of inviting the insurance companies to settle their claims.<sup>4</sup>

The Committee is concerned that, in connection with CMS's solicitation of settlement offers, the Administration may be considering using the permanent appropriation for judgments ("Judgment Fund") to pay any settlement agreements, even though Congress has acted – twice – to expressly prohibit the expenditure of taxpayer dollars on this program.

To assist the Committee in addressing these concerns, please provide a briefing to Committee staff no later than October 10, 2016. Please also provide (i) all documents and communications between employees of LLH and employees of the Executive Branch, including the Executive Office of the President, referring or relating to the lawsuits or discussions of other actual or potential legal actions, claims, settlements, or resolution of shortfalls related to the Risk Corridors program, and (ii) all documents and communications among LLH employees referencing any discussions with employees of the Executive Branch, including the Executive Office of the President, concerning potential settlement of claims or resolution of shortfalls under the Risk Corridors program, by October 17, 2016.

An attachment to this letter provides additional information on how to respond to the Committee's request. If you have any questions regarding this request, please contact Emily Felder or Adam Buckalew with the Committee staff at (202) 225-2927.

Sincerely,

Fred Upton
